Mikrant ET6010H

Redispersible Powder (RDP)

Description

Mikrant ET6010H is a strong hydrophobic white powder which is obtained from vinyl acetate ethylene through spray-drying process. The addition of Mikrant VAE-RDP in dry-mix formulations can enhance the mortar adhesion, cohesion and bonding strength. It improves the mortar workability and enhances the hydrophobicity, durability, and abrasion resistance features of the mortar, and also provides a remarkable hydrophobic effect.
